

Motivated Mobile Application Developer with experience in native iOS (Swift) and Flutter, skilled in building apps from scratch and integrating APIs. Currently pursuing a Master of IT in Artificial Intelligence at Macquarie University, with a strong software engineering background and a passion for creating efficient, user-focused solutions.

EXPERIENCE

WebSchool.au – Sydney, NSW, Australia

09/2025 – Present

Mobile Application Developer

- Developed a native iOS application from scratch using Swift (UIKit) and MVVM, integrating 10+ REST APIs with JWT authentication.
- Implemented Bluetooth, camera, and secure local storage features for hardware-enabled mobile workflows.
- Supports 4+ environment configuration simultaneously to support parallel testing and deployment.
- Integrated mobile app with ESP32 microcontroller using Rust, enabling secure token validation and data exchange via Wi-Fi and Bluetooth.
- Managed App Store deployment pipeline, delivering 4 production releases via TestFlight and App Store Connect.
- Achieved ~99% crash-free rate in production builds through extensive testing and system integration.
- Independently developed and maintained the application while collaborating via Git-based workflows.

Penril Datability (M) Sdn. Bhd. – Kuala Lumpur, Malaysia

12/2021 – 02/2024

Web and Mobile App Software Engineer

- Designed and developed native iOS applications using Swift for banking industry.
- Integrated and maintained transaction and payment modules, ensuring secure and efficient performance.
- Deployed and maintained applications on the App Store and internal testing environments.
- Developed new mobile features, including transaction history, payment processing, and balance inquiries.
- Performed debugging, maintenance, and quality assurance testing to ensure app reliability.
- Built and consumed RESTful APIs for backend integration.

EDUCATION

2024 – Present **Macquarie University**

Master of Information Technology in Artificial Intelligence

2018 – 2021 **Asia Pacific University of Technology and Innovation**

Bachelor of Science in Software Engineering

GPA 3.28
